

Please disallow Sinclair Broadcasting from broadcasting an anti-Kerry documentary. Sinclair is violating the standard of impartial news reporting. They, Sinclair, are forcing its news organizations to place an anti-Kerry documentary on the air.

This violates all that is fair in public broadcasting. They can not be allowed to air biased news unless they also air the opposite argument and broadcast Fahrenheit 911.

By airing this anti-Kerry documentary Sinclair is suffocating democracy in America. I assume those of you working at the FCC have taken an oath to support the Constitution. It is your responsibility to stop the control of the media by one organization. That violates the rights guaranteed to every American to have free and open discourse. Instead it will restrict the media to one point of view, which does not live in a democracy but lives in a dictatorship.

Sincerely,

James H. Kime
